Summary

As a passionate web developer, I specialize in creating responsive and dynamic websites using modern technologies such as HTML, CSS, JavaScript, and React. I have a strong foundation in front-end development, with a focus on delivering high-quality code and intuitive user experiences. Continuously learning and implementing best practices, I aim to craft efficient and scalable solutions

Experience

kreativan technologies

Projects

1. Digisky.ai

02/2025 - 03/2025

Digisky.ai is an AI-powered SaaS platform that provides intelligent automation and data-driven solutions to help businesses streamline operations.

- **Key Highlights:**
  Built using React.js, Node.js, MongoDB, and integrated with Firebase for smart data handling.
  Designed dynamic admin dashboards with real-time analytics for client data monitoring.

2. ShaadiSanskar

04/2025 - 06/2025

ShaadiSanskar is a modern matrimonial web platform designed to connect individuals based on culture, religion, and personal preferences.

- **Key Highlights:**
  Developed a fully responsive multi-step profile creation form with 6 steps, storing data in MongoDB via a Node.js backend.
  Integrated image uploads using Firebase Storage; only URLs stored in the database to reduce payload.
  Implemented real-time chat using Socket.io with user roles (freelancer/client) and message saving in MongoDB.

3. Digisky Fusion

02/2025 - 02/2025

Digisky Fusion is a web and mobile development agency that offers customized digital solutions for startups and businesses.

- **Key Highlights:**
  Developed and deployed 5**+ responsive websites** using **React.js**, **Tailwind CSS**, improving load time and mobile performance.
  Created reusable UI components and implemented responsive designs using Tailwind CSS.
